Sina Mehdizadeh

[Meh-dee-zä-deh]
Curriculum Vitae, April 2022

Locomotion Lab, Department of Biomedical Physiology and Kinesiology, Simon Fraser University, 8888 University Dr, Burnaby, BC V5A 1S6.
smehdiza@sfu.ca
drsinamehdizadeh@gmail.com
sinamehdiz.com

Highlights

- 2 grants, 5 fellowships, and 7 awards
- 27 journal publications, 2 book chapters
- Several teaching and mentoring experiences
- Member of the CIHR College of Reviewers
- CIHR reviewer of doctoral fellowships
- Certificate of rTMS operation form CAMH
- Certificate of 2020 Neuromatch Summer School on Computational Neuroscience
- Certificates of teaching in higher education from University of Toronto

Research Interests: Neuromechanics of locomotion, multibody dynamics, computational neuroscience, gait biomechanics, dynamic stability of gait, fall prevention, movement variability

Current position

Sept 2021 -present — **Postdoctoral Fellow-** *Locomotion Lab, Department of Biomedical Physiology and Kinesiology, Simon Fraser University, Burnaby, BC, Canada.*

Education

2014 — **Ph.D., Biomedical Engineering-Biomechanics-** *Amirkabir University of Technology, Tehran, Iran*

- GPA: 4.0/4.0. Thesis: Identification of Skill Characteristics of Soccer Players in Agility Using Linear and Nonlinear Analysis of Movement Kinematic Variability
- Supervisor: Prof. Ahmed R. Arshi, Amirkabir University of Technology
- Advisor: Prof. Keith Davids, Sheffield Hallam University

2009 — **MSc., Biomedical Engineering-Biomechanics-** *Amirkabir University of Technology, Tehran, Iran*

- GPA: 4.0/4.0

2007 — **BSc., Biomedical Engineering-Biomechanics-** *Amirkabir University of Technology, Tehran, Iran*

- GPA: 3.0/4.0
- Ranked among top 0.5% in the entrance exam
- Amirkabir University of Technology rankings:

- Top three Universities in Iran, No. 1 in Biomedical Engineering
- 2014 Shanghai World University Rankings: 150-200
- For further details, see: https://en.wikipedia.org/wiki/Amirkabir_University_of_Technology

Employment

A. Research

Oct 2018 – Sep 2021 **Postdoctoral Fellow-** *Toronto Rehabilitation Institute, Toronto, ON, Canada***.**

Achievements:

- 8 published papers
- 2 grants as co-investigator
- 3 fellowships
- 3 teaching certificates
- Mentoring students

Sep 2016- Sep 2018 **Senior Biomechanist-** *Biomechanics department, Podium Division, National Sports Institute, Kuala Lumpur, Malaysia.*

Roles:

- Clinical gait assessments
- Writing research proposals
- Conducting Research studies
- Publishing research outcomes

Jun 2015- Sep 2016 **Research Assistant-** *Biomechanics Lab., Rehabilitation Research Center, Department of Rehabilitation Sciences, Iran University of Medical Sciences, Tehran, Iran.*

Achievements:

- Mentoring Graduate students
- Member of the Clinical gait analysis team
- Writing research proposals

B. Teaching *[3 graduate and 2 undergrad courses]*

Jan 2016 – Sep 2016 **Principal Lecturer (Undergrad)-** *Biomedical Engineering Department, Science & Research University, Tehran, Iran.*

Courses:

- Biomechanics (designed the syllabus, slides, assignments, exams, and gave the lectures)
- Rehabilitation Engineering (designed the syllabus, slides, assignments, exams, and gave the lectures)

Fall & Winter 2015 **Co-principal Lecturer (Graduate)-** *Beheshti University, Tehran, Iran.*

Courses:

- Motor Control (co-designed the syllabus, slides, assignments, exams, and gave half of the lectures)

- Biomechanics (co-designed the syllabus, slides, assignments, exams, and gave half of the lectures)

Fall 2010 **Principal Lecturer (Graduate)-** *Ergonomics group, University of Social Welfare & Rehabilitation Sciences, Tehran, Iran.*

Courses:

- CAD/CAM (designed the syllabus, slides, assignments, exams, and gave the lectures)

Spring 2010 **Teaching Assistant (Undergrad)-** *Amirkabir University of Technology, Tehran, Iran.*

Courses:

- Modeling in biomedical engineering

C. Mentoring *[2 PhD students]*

2015-2019 **Banafshe Ghomian**, PhD candidate. Department of Rehabilitation Basic Sciences, Iran University of Medical Sciences, Tehran, Iran. Thesis title: Effect of different rocker sole designs on gait dynamic stability in people with diabetes with and without neuropathy.

2015-2019 **Sadegh Norouzi**, PhD candidate, Department of Physical Therapy, Jondishapoor University, Ahvaz, Iran. Thesis title: Effect of knee osteoarthritis on lower extremity coordination and coordination variability in a drop jump test.

D. Industry

2009 - 2012 **Design, engineering, R&D and CE consultant-** *Attila Orthopaed Co. (orthopedic implants manufacturing company), Tehran, Iran.*

2012 - 2013 **Design, engineering, R&D and QC consultant-** *Pishgaman Co. (orthopedic implants manufacturing company), Tehran, Iran.*

Publications

[2 co-authored book chapters, 27 journal papers (16 first-author, 4 sole author, 2 review papers), and 12 conference abstracts]

[example journals: J Biomechanics: 6, Gait & Posture: 2, Human Movement Science: 1, Sports Medicine: 2, J Gerontology Series A: 1, Clinical Biomechanics: 1, JAMDA:1]

Book chapters

1. **Mehdizadeh, S.**, & Moradi, V. Chapter 11: How to run a clinical gait analysis service? In: M.A. Sanjari, Gait: Measuring and Reporting. Setayesh Hasti Publishing, Tehran. 2017. (in Persian)
2. Navvab, F. & **Mehdizadeh, S.**, V. Chapter 12: How to establish and maintain a gait analysis lab. In: M.A. Sanjari, Gait: Measuring and Reporting. Setayesh Hasti Publishing, Tehran. 2017. (in Persian)

Journal papers

Published/in-press

1. Sabo, A., **Mehdizadeh, S.**, Iaboni, A., Taati, B. (2022). Estimating parkinsonism severity in natural gait videos of older adults with dementia. IEEE Journal of Biomedical and Health Informatics (In press). https://doi.org/10.1109/JBHI.2022.3144917.

10. **Mehdizadeh, S.**, Komasi, P., Shirzad, E., Nabavi, H. Measuring Local Dynamic Stability of Athlete in Agility Drill Using Lyapunov Exponent (Abstract), 16th Annual Congress of the European College of Sport (ECSS), Liverpool, 2011.

11. **Mehdizadeh, S.**, Arshi, A.R., Shirzad, E., Nabavi, H. Comparison of Single and Double Inverted Pendulum Models in Determining Cerebral Palsy Trunk Muscles in Sitting Position: A Subject Specific Approach, 6th International Congress on Biomechanics,2010.

12. **Mehdizadeh, S.**, Najarian, S., Farmanzad, F., Khoshgoftar, M., Sedighi, A.M. Experimental Biomechanical Analysis of Brain Tissue Necking in Tension, CSME Conference, Canada, 2008.

Presentations and Lectures

May 2021	**Saint Louis University, guest lecturer.** Bipedal models of human gait.
May 2021	**21st Biennial Meeting of the Canadian Society for Biomechanics- Montreal, Canada (virtual).** Developing a prognostic model based on gait mechanical stability and fall history to predict short-term falls in older adults with dementia.
May 2021	**Human Movement Variability Conference- University of Omaha, Nebraska (virtual)** Is higher gait kinematic variability indicative of lower gait stability?
Aug 2019	**XXVII ISB Congress- Calgary, Canada.** Gait stability, fall history, and neuropsychiatric symptoms are associated with falls in people with dementia.
Jul 2017	**XXVI ISB Congress- Brisbane, Australia.** Effect of noise on local dynamic stability measures of human movement.
Feb 2015	**8th Intl. Congress on Physical Education and Sport Science- Tehran, Iran.** Lecture: on the use of movement variability in the analysis of human movements, in the workshop: Defeat of engineering approaches in sport.
Nov 2013	**Congress on Sport Sciences: Needs of Future Generation- Tehran, Iran.** Workshop title: Escaping from Dynamics
Jul 2011	**XXIII ISB Conference- Brussels, Belgium.** Qualitative analysis of an agility drill using different state spaces: a dynamical system approach.
Jul 2010	**6th International Congress on Biomechanics- Singapore.** Comparison of Single and Double Inverted Pendulum Models in Determining Cerebral Palsy Trunk Muscles in Sitting

Grants, Awards, and Fellowships

Research Funds

Nov 2019	Grant No.: SPARK-4-00286 (PI: Iaboni A., **CO-PI: Sina Mehdizadeh**)- Funded Funding Organization: Centre for Aging + Brain Health Innovation (CABHI) Amount: 50,000 CAD Period of Grant Award: 11, 2019 - 11, 2020 Title: Video-Based gait assessment to monitor changes in health status and reduce hospital visits in older adults with dementia My Role on Project: Co-PI, wrote the initial draft, revised with the PI and submitted the proposal.
Feb 2020	Grant No.: RN398696–426380 (PI: Iaboni A., **CO-investigator: Sina Mehdizadeh, et al.**)- Funded Funding Organization: CIHR Amount: 344,250 CAD Period of Grant Award: 2019-2024 Title: Computer vision for daily monitoring of gait instability to detect an increased risk of falling My Role on Project: Co-Investigator, wrote the section on gait stability

Awards

2021	UHN Office of Research Trainees Conference Registration Award- 120 CAD (competitive, awarded three times per year)
2020	Focus on Accessibility Awards- 2000 CAD- funded by the Government of Ontario, Ministry of Seniors and Accessibility
2019	CIHR Travel Award (No. RN398696-426380)- 1000 CAD
2019	AGE-WELL ACCESS award-2500 CAD (No.: AWAC-Oct19-010, competitive)
2019	UHN Office of Research Trainees Travel Award- 500 CAD (competitive, awarded three times per year)
2018	AGE-WELL Travel award (competitive, covered travel and accommodation)
2015	Travel award to attend 2nd International Berlin Autumn School on Movement Science, Berlin, Germany (competitive, covered registration, travel and accommodation)

Fellowships

Sep 2020- Aug 2022	CANSSI Ontario Postdoc Fellowship top-up: Deep learning to predict optimality of future foot placements in walking of older adults- 10K CAD
Sep 2020- Aug 2021	AGE-WELL postdoc fellowship: Artificial intelligence for the real-time prediction of optimal foot placement in the gait of older adults- 20k

	CAD
Jan 2019- Dec 2019	Mitacs Accelerate Fellowship: A Vision-based system for intelligent monitoring of gait poses in Dementia- 45K CAD
Sep 2009- Sep 2013	PhD Graduate Fellowship (covered four years of tuition fees)
Sep 2007- Sep 2009	MSc Graduate Fellowship (covered two years of tuition fees)

Patent

Mehdizadeh, S., Hooshiar, A., Rostami, M., Karimi, M. (2009). A novel digital angular knee arthometer (IR patent No.: 60310).
The aim of this device was to automatically measure the laxity of medial and lateral knee ligaments (MCL and LCL). While there was such a device for the knee anterior and posterior ligaments (ACL and PCL), the lack of such a device for medial and lateral ligaments were obvious as the current method of measuring MCL and LCL was manual and subjective. This device tried to automatize this process by changing the knee angular motion to linear measures of laxity. In this project, I was responsible for the mechanical design of the device and its mechanism of action.

Peer Review Experiences

Journal of Biomechanics	Medicine & Science in Sport & Exercise
Gait & Posture	Journal of Sport Sciences
Clinical Biomechanics	International Journal of Athletic Therapy and Training
Human Movement Science	PLOS ONE
Journal of Applied Biomechanics	Scientia Iranica
The Open Biomedical Engineering Journal	JMIR Rehabilitation and Assistive Technologies
Adaptive Behavior	Computers in Biology and Medicine
Scientific reports	IEEE Access
Biomedical Engineering online	International Journal of Medical Informatics
Chaos: An Interdisciplinary Journal of Nonlinear Science	

Computer Skills

Programming	**Biomechanics**

Matlab (80% several years of experience, everyday use),
Labview (30%, need-based use),
Python (70%, everyday use)

TensorFlow/Keras/Sci-kit Learn (50%, need-based use)

Visual 3D (90%, several years of experience),
Opensim (50% need-based use),
PyDy Multibody Dynamics (70%, need-based use)

CAD

Catia/Solid Works (80%, several years of experience)

Statistics

R (70%, everyday use)

Biomechanical Skills

Hands on experience in working with:

Motion Capture: Qualisys (QTM)
Force plates: Kistler (Bioware + MARS); Bertec instrumented treadmill
Accelerometer: Xsens, Noraxon Myomotion

EMG: Noraxon Myomuscle

Language

English: Advanced. IELTS score: 7.5 TOEFL score: 102. GRE score: 308
Persian: mother tongue

Membership

Organization for Computational Neuroscience (membership No.: 2774)
International society of motor control
Canadian Society of Biomechanics (membership No.: 1100)
International Society of Biomechanics (membership No.: 4257)
American Society of Biomechanics (membership No.: 4573)
AGE-WELL NCE highly qualified personnel (HQP)

Professional Development

Teaching

University of Toronto Certificate of Teaching Fundamentals Certificate (workshop series)
University of Toronto Certificate of Advanced University Teaching Preparation (workshop series + microteaching)
University of Toronto Prospective Professors in Training (PPIT)- Winter 2020
UHN Toastmaster group on public speaking

Research

2019 and 2020 University of Toronto, Faculty of Medicine workshop: Grant Writing
University of Toronto, School of Graduate Studies workshop: writing CIHR grants
Mitacs workshop: Practice Your Presentation Skills
University of Toronto, School of Graduate Studies workshop: Becoming a Productive Writer
UHN Libraries workshop: The Right Review for You
UHN workshop: Beyond Informed Consent
UHN Libraries workshop: PubMed Basics, Tips
AGE-WELL Webinar: Introduction to Transdisciplinary Working in Aging & Technology
AGE-WELL Webinar: Technologies that work with you: Leveraging human-centred design to create zero-effort technologies
AGE-WELL Webinar Series: Involving End-Users in All Stages of Research
Mitacs workshop: Project Management

University of Toronto, School of Graduate Studies workshop: Making the Most of Oral Presentations
AGE-WELL Webinar: Advancing best practice in balance and mobility testing for fall risk assessment in older Canadians
AGE-WELL Webinar: Preventing fall-related head injuries in older adults- Using video evidence to inform practical interventions
Toronto Rehab's Workshop on Sex and Gender Considerations in Preparing Health Research Grants
Python programing workshop

Soft skills

Mitacs workshop: Essentials of Productive Teams
Mitacs workshop: Skills of Communication
SMRTS Webinar: Practical Project Management
AGE-WELL Webinar Series: Professional Development Series- You Got Hired!
University of Toronto workshop: Teaching and Learning Transferable Skills: For Yourself and Your Students

Entrepreneurship

Courses:
HarvardX: Technology Entrepreneurship: Lab to Market
Coursera: Business Models for Innovative Care for Older Adults
University of Toronto: Intellectual Property Levels 1 & 2

Workshops:
Mitacs: Discovering the Entrepreneur Within
AGE-WELL Cortex Design: Optimize your Ethnographic Study
University of Toronto: Primary Research Strategies and Tools for Startups
University of Toronto: Data Resources for Entrepreneurs
